itsazeezwork@gmail.com | +91 7989284581

SUMMARY

Entry-level Java Developer with hands-on experience in Java, Spring Boot, Spring Security, REST APIs, PostgreSQL, Redis, and AI API integrations. Experienced in building secure backend services, authentication, database persistence, API integration, validation, debugging, Docker, and CI/CD. Built and deployed full-stack applications with Java backends and React frontends.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, HTML, CSS
- **Core Java:** Object-Oriented Programming (OOP), Collections, Exception Handling, Streams, Multithreading
- **Backend:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Spring Session
- **Databases:** PostgreSQL, MySQL, Redis
- **Architecture:** Layered Architecture, RESTful Architecture, API Integration
- **AI and APIs:** Groq AI API, Google Gemini API, OpenAPI, Swagger
- **Tools:** Git, GitHub, Docker, GitHub Actions, Postman, Swagger, CI/CD
- **Practices:** Agile, Software Development, Testing, Debugging, Troubleshooting, Validation

WORK EXPERIENCE

Java Developer Intern

Aug 2025 – Feb 2026

V Cube Software Solutions – Hyderabad, Telangana

- Developed 50+ REST APIs using Java, Spring Boot, and Spring Security, with authentication and validation.
- Built backend services using JPA, Hibernate, and PostgreSQL, optimizing queries for performance.
- Implemented Redis caching, reducing API response time by 30%.
- Debugged backend and API issues using Postman, improving reliability.
- Created Swagger/OpenAPI documentation and supported Docker and GitHub Actions CI/CD deployment.

PROJECTS

Twinkle AI – Multi-Model AI Platform

Technologies: Java, Spring Boot, Spring Session, Redis, PostgreSQL, Groq AI, Google Gemini, React, TypeScript, Docker

GitHub: <https://github.com/azeezazeez/Twinkle-AI>

Live Link: twinkleai.vercel.app

- Developed a full-stack AI chatbot using Java, Spring Boot, React, and TypeScript, implementing HTTP session-based authentication, Redis-backed session management, email OTP verification, Google OAuth, and password recovery.
- Built and integrated 25+ REST APIs for authentication, chat sessions, conversation history, AI model selection, chat search, file uploads, profile analytics, and real-time Live Talk functionality.

Zyphora – E-Commerce Full Stack Web Application

Technologies: Java, Spring Boot, Spring Security, JWT, PostgreSQL, React, TypeScript, Docker

GitHub: <https://github.com/azeezazeez/Zyphora-Ecommerce>

Live Link: zyphora-cart.vercel.app

- Developed a full-stack E-commerce application using Spring Boot, PostgreSQL, and React, implementing JWT authentication, role-based authorization, email OTP verification, and secure password management.
- Built 30+ REST APIs covering authentication, products, cart, wishlist, orders, customer management, and admin operations, with validation, exception handling, and PostgreSQL persistence.

EDUCATION

B.Tech – Electronics and Communication Engineering (ECE)

2022 – 2025

Vaagdevi Institute of Technology and Science

CGPA: 7.7/10

CERTIFICATION

Java Full Stack Development – V Cube Software Solutions
