SUMMARY

Entry-level Java Developer with hands-on experience developing, testing, troubleshooting, debugging, and implementing Java-based software applications using Java, Spring Boot, Spring Security, and REST APIs. Experienced in scalable backend development, application performance optimization, PostgreSQL, Redis, microservices, and CI/CD deployment. Familiar with Agile methodology, Apache Kafka, Git/GitHub, Swagger, problem solving, collaboration, and continuous improvement.

TECHNICAL SKILLS

- **Programming Languages:** Java (Java SE, Java EE), JavaScript, HTML, CSS
- **Java Development:** Java Application Development, Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, REST APIs, OOP
- **Software Engineering:** Software Development, Application Testing, Troubleshooting, Debugging, API Integration, Performance Optimization, Scalable Application Development
- **Databases:** PostgreSQL, MySQL, Redis
- **Messaging & Architecture:** Apache Kafka, Microservices Architecture
- **Testing & API Documentation:** Postman, Swagger
- **DevOps & Collaboration Tools:** Git, GitHub, GitHub Actions, Docker, CI/CD (basics)
- **Development Methodologies:** Agile Methodology, Collaborative Software Development, Continuous Improvement

WORK EXPERIENCE

Java Developer Intern

Aug 2025 – Apr 2026

V Cube Software Solutions - Hyderabad, Telangana

- Developed, tested, and implemented 10+ Java-based REST APIs using Spring Boot, Spring Security, and JWT, supporting secure role-based application access.
- Troubleshot and debugged backend application issues, tested REST APIs using Postman, and resolved API integration and implementation issues during software development.
- Optimized PostgreSQL queries and implemented Redis caching, reducing API response times by 30% and improving application performance and scalability.
- Developed backend services within a microservices architecture and supported application deployment using Docker and GitHub Actions CI/CD pipelines.
- Created and maintained Swagger API documentation to support API integration and improve collaboration across development activities.
- Collaborated with team members throughout application development, testing, debugging, deployment, and continuous improvement activities following Agile development practices.

PROJECTS

Cartify E-Commerce Full Stack Web Application

Technologies: *Java, Spring Boot, Spring Security, JWT, PostgreSQL, React, Swagger*

Github: <https://github.com/azeezazeez/Cartify-Web-Application>

Live Link: <https://cartify-cart.vercel.app>

Note: (For live links initial load may take 5 - 10 seconds to load)

Developed and implemented a full-stack Java-based E-commerce application using Spring Boot and React with JWT authentication and role-based access control. Designed and tested 10+ REST APIs, optimized PostgreSQL queries, and improved backend application performance. Implemented scalable backend services and documented REST APIs using Swagger.

Nexus AI Chatbot Full Stack Web Application

Technologies: *Java, Spring Boot, PostgreSQL, Redis, Groq AI API, React*

Github: <https://github.com/azeezazeez/Nexus-AI-Chatbot>

Live Link: <https://nexus-smart-ai.vercel.app>

Note: (For live links initial load may take 5 - 10 seconds to load)

Developed a Java-based AI chatbot application using Spring Boot and Groq AI API with Redis caching for improved application performance. Implemented session management, chat history, REST API integration, and React-based user interface. Optimized response latency to below 2 seconds and deployed the application using an automated CI/CD pipeline.

EDUCATION

2022 – 2025 B.Tech (ECE) – **Vaagdevi Institute of Technology and Science** (CGPA: 7.7/10)

2019 – 2022 Diploma (ECE) – **Government Polytechnic College** (CGPA: 6.9/10)

2009 – 2019 Matriculation – **Scholar's High School** (CGPA: 9.5/10)

CERTIFICATIONS

• **Java Full Stack Development** – V Cube Software Solutions (2025 – 2026)
